🎓 EDUCATION

Full Stack Web Development
Masai School
May 2021 – Jul 2022 | Bengaluru, India
Skills - HTML, CSS, JavaScript, React-JS, Redux, Node-JS, Express, MongoDB, No-SQL.

B.COM
Kurukshetra University
Jun 2018 – Jul 2021 | Haryana, India

🧠 TECHNICAL SKILLS

HTML | CSS | JavaScript | React | Redux

Express | Node JS | React Native

MongoDB | Github | Postman

TypeScript

🧩 SOFT SKILLS

Excellent Communication | Presentation

Teamwork | Problem Solving

Time Management

🌐 LANGUAGES

English | Hindi

✏ SUMMARY

SUMMARY
Results-driven Full Stack Developer with expertise in React, React Native, Express, Node.js, and MongoDB. Proven ability to design, develop, and deploy end-to-end applications, specializing in responsive interfaces and cross-platform mobile development. Skilled in problem-solving and collaboration within Agile methodologies. Eager to contribute technical proficiency and passion for innovation to create exceptional solutions.

💼 PROFESSIONAL EXPERIENCE

Aekatr Technology and Services Pvt. Ltd. (Quickiii) ⊡
Full-stack Web Developer
Nov 2022 – present | Panipat, India
Lead development of React.js-based web applications, overseeing both front-end and back-end components. Create efficient code, design responsive user interfaces with **React, HTML, CSS, and JavaScript.** Manage server-side development, including database administration, API integration, and server logic using React, **Express.js, and MongoDB.** Promote team collaboration, conduct React-oriented code reviews, and ensure timely project delivery

📁 PROJECTS

Aashirwad Labs ⊡ ○
ReactJs ,Node MongoDB and Express
Aashirwad Labs provides a medical laboratory management web app using **React for the frontend, and Express, Node.js, and MongoDB** for the backend. Patients can easily **book tests, request home collections, and download reports**. The system ensures scalability and offers two-level administrative control.

E-commerce ⊡ ○
ReactJs, NodeJs, MongoDB and Express
I independently developed an E-commerce project through self-learning. The project, completed within 15 days, features RazorPay integration for secure payments. I utilized **ReactJS** for the frontend, managed state with Redux, implemented a sleek UI with Chakra-ui, and built a robust backend using **Express, Node.js, and MongoDB**.

Quickiii Seller Dashboard ⊡
React Js
Design and implement React-based UIs for the seller website, develop and maintain React APIs for smooth communication with the Node.js server. Implement features like **product management, order tracking, and sales analytics**. Ensure website security and reliability through **React and Node.js** best practices. Collaborate with the team for seamless integration with the platform

Quickiii - Delivery and E-Commerce App ⊡
Backend
Design and implement server-side architecture, develop and maintain APIs for app-server communication, and optimize MongoDB database for the app. Expert in crafting robust architectures, APIs, and **database designs** for various applications (**Seller, Buyer, Seller Panel, and Ride**r). Collaborate with frontend developers to integrate UI with server-side logic
